BRING THEM BACK.

In the grimy tenement-house section music once lent its refining charm, at least transiently. The street-band, with its glittering brass, its showy uniforms, notwithstanding its eleemosynary cap, was a grateful, inspiring feature. The serenaders would anchor themselves on a corner, blow, and, presto! new life seemed to prickle through the street. The horses dragged their loads more contentedly, the men smoked more enjoyingly, and the women rubbed their "wash" up and down the washboards, helped by the rhythmic strains.

The children would clasp each other's waists and dance like motes in the sunshine, saunter empty hunded and with banging arms. little cases of humanity filled with the oil of gone, and gone is the gladness that they brought!

PUNISHMENT SHOULD BE SPEEDY.

Some she-devil lured a dozen poor young girls from their homes in Toronto by promising to them good situations in the West. She inveigled them to a lumber camp, where they were outraced and then kept prisoners and subjected to inhuman treatment.

The sight of innocent young girls, poor and unfriended, wrecked for life by the brutal just of men through the machinations of this creature of hell in the shape of woman, is enough to raise a ferment of indignation in any community that calls itself civilized. Havging is too mild a punishment for such fiendish evil as this.

Human feeling ought to be too strong to suffer it to go unredressed.

IS IT A SAFEGUARD?

The Australian balloting tested in the Massachusetts election has proved a triumphant success according to most of the ponticians around Massachusetta Bay. If to secure to the workingman perfect freedom in casting his vote it be necessary that it should remain unknown save to himself for whom that vote be cast then the Australian system, which effects this, has immense claim to consideration.

That this secrecy is necessary for the workmen in large industrial centres seems beyond a doubt. This success in the first trial of the Australian system is therefore highly satisfac-

Give the Man a Little Variety.

To the Editor: Variety is the spice of life, and man needs plenty of spice. Let a wife have ever so cheerful a home for her husband, and if every evening is the same monotonous round, the average

He secured no actual Republican gains in this city, although the five County Democratis elected with Republican aid are alleged to be piedued to the Platt interests.

The Democratic gains outside the city were of Sensiors in the First, Fourth and Seventeenth districts, and the Republicans the Newburg and Saratoza districts.

Seats will probably be contested in the Delaware District, where Ballantine, the Republican caudidate, has a majority over Mayward by the use of fillegal ballots; in the Fourth District of Albany County, where Le Roy, Republican, claims that Gillice, Demicrat, was successful because of repeating, and in the Third Mouroe District, where there is a majority of but three or four either way between Loder, Republican, and Decker, Democrat.

The result in the State shows a majority for the head of the Democratic ticket of about 22 000 in the light of the latest returns, a gain of 5,000 over 1887.

If used freely by both, with the sance of con-tentment, I am sure "John" would stay home evenings, and also prevent the necessity of converting the home into a club-room.
